AHS Farmyard Manure Specification

AHS are proud to have been supplying the UK landscape industry with quality composts for over 25 years.

AHS Farmyard Manure is simply that—a Farm yard manure which is a nutrient rich soil improver that is mixed into depleted or poor soil to improve vital nutrients available to healthy plant growth.

Application Rate:

We recommend that all our mulches are laid at a depth of between 50 & 100mm to obtain the best results.

Available In:

- Bulk Loose only.

Features:

- Produced from cattle bedding material
- Increases your soil's physical structure
- Composted in rows for a minimum of 8 weeks
- 100% natural product and contains no additives or colouring
- Moisture content is in the range of 40 to 60% (green weight basis)
- 95% of particles fall within a 0-25mm range
- The pH range is 7.0 to 8.5
- Weight/volume ratio is normally in the range of 350 to 500kg/m³
- Free of all foreign matter *

* Whilst all practical measures are taken to remove foreign matter such as metal, glass and plastic we cannot guarantee the complete absence of all extraneous material. The total amount will not exceed 0.2% by weight.
