AHS Fine Composted Bark Specification

AHS are proud to have been supplying the UK landscape industry with bark & woodchip for over 25 years.

Fine Composted Bark is 100% British mixed conifer bark with a high percentage of spruce, it can be used as a single season ornamental mulch or as a soil conditioner.

Application Rate:

We recommend that all our mulches are laid at a depth of between 50 & 100mm to obtain the best results.

Available In:

- Bulk Loose
- 80ltr Bags
- 60ltr Bags
- Bulk Bags

Features:

- 100% British
- 90% of particles 0-8mm
- Minimal dust and fines
- Durable and long-lasting
- Minimal white wood content, typically no greater than 10%
- Bulk density typically 250-500kg/m³
- pH range 5.5-7.5
- Free from methyl bromide, pathogens, pests and weed seeds
- Fire-resistant, in accordance with BS 4790:1987, ideal in areas of fire risk

* Whilst all practical measures are taken to remove foreign matter such as metal, glass and plastic we cannot guarantee the complete absence of all extraneous material. The total amount will not exceed 0.2% by weight.
