AHS GPB Rootzone Specification.

AHS are proud to offer a range of blends within our GPB Rootzone Mix. Our rootzone is a cost effective rootzone which is screened to 10mm. Available as the most popular 70:30 blend of Sand and Soil, this rootzone is ideal for Sports Surface Construction and Outfields.

Also available as 60:40, 80:20 and 90:10 blends, to suit all project requirements. GPB Rootzone can also be used as a cost effective topdressing to dress areas such as outfields and winter sports pitches.

Key Facts:

- 10mm Screened
- Carefully sourced and 100% natural
- Compacted Bulk Density 1500kg/m³
- PH – 7.0-8.0

Uses:

- Laying of domestic & ornamental lawns.
- Pushed up greens.
- Golf tees.
- Sports surface construction.
