AHS Rapid Set Concrete (Post Mix) Specification

Our AHS Rapid Set Post Mix is a high quality pre-mixed formulation that is specifically designed for the fast setting of wooden, concrete, plastic and metal posts. It is simple to use, just add water and it sets posts in 5 -10 minutes. Offering 25N/mm² set strength.

Applications include:

Fence / gate posts. Bollards. Road signs. Street furniture. Pergolas. Landscape features. Rotary washing lines. Small footings.

Benefits:

- Rapid setting product
- Minimal waste
- Consistent mixture & strength
- Durable Carry Handle
- 100% waterproof & recyclable packaging
- Time saving
- Just add water, no mixing required
